**Location**  
**FACULTY OF NATURAL SCIENCES 'E' BUILDING**

*Come out, support and learn how to*  
**#Stay Safe and Stay Secure!**

# DATA & PRIVACY WEEK

**PROTECT YOUR POWER**

**WHAT IS DATA PRIVACY?**

Data Privacy means protecting your personal information like passwords, financial details, and browsing habits from unauthorized access.

**IT'S IMPORTANCE**

It's crucial because it safeguards your identity, prevents misuse of your data, and gives you control over how your information is shared.

**TIPS TO PROTECT YOUR DATA**

- Use Strong Passwords:** Combine upper & lowercase letters, numbers, and symbols.
- Enable Two-Factor Authentication (2FA):** It's like a double lock for your accounts.
- Think Before You Click:** Avoid links or emails that seem too good to be true.
- Check Privacy Settings:** Adjust what others can see about you on social platforms.
- Limit Personal Info:** Oversharing makes you vulnerable – post smart!

Join the Guyana Internet Governance Forum for our

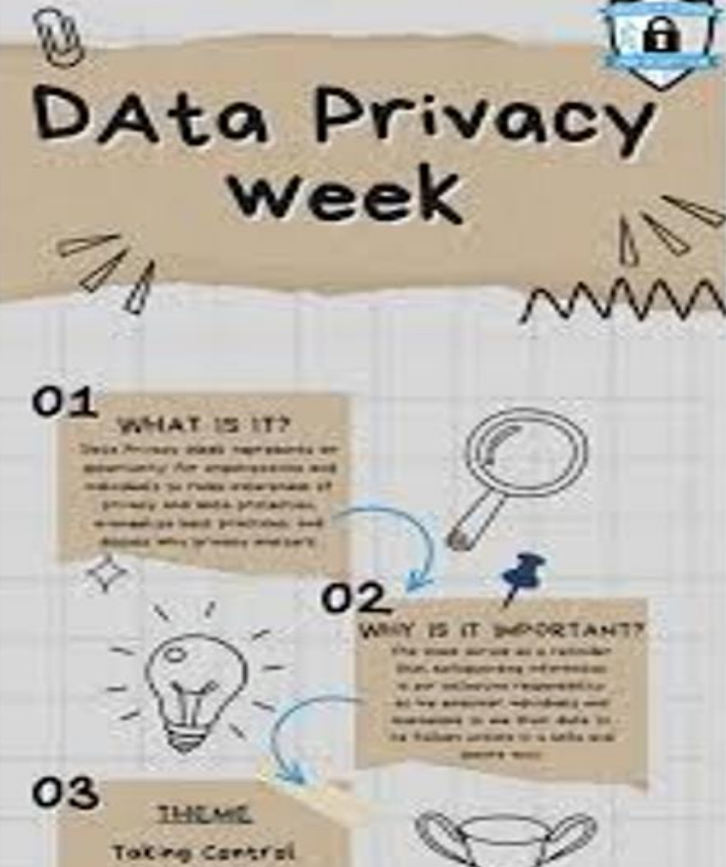

# INTERNET SECURITY MONTH EVENT

**TUESDAY, 5PM-8PM**

**Fresh Restaurant**  
Carmichael Street,  
Georgetown,  
(located between  
Scotia Bank and  
Guyana Post Office)

# Data Privacy week

**01 WHAT IS IT?**  
Data Privacy week represents an opportunity for employers and individuals to take measures of privacy and data protection, awareness best practices, and discuss why privacy matters.

**02 WHY IS IT IMPORTANT?**  
This week serves as a reminder that safeguarding information is an individual responsibility. As we generate, regularly use, and sometimes lose our data, it is our future selves to be safe and secure.

**03 THEME**  
Taking Control of Your Data
